Projects

Geekbuying.com website-Clone 📌

- Geekbuying.com is an e-commerce website. From this website, you can buy electronics products
- Developed along with a team of 5 members in one week
- Here we mainly worked on providing the dynamic user interface with some functionalities.
- My task in this project was to store the data of products in the backend and use that data to display all the available products on the product page.
- Tech stack: HTML, CSS, Javascript

Shop.com website-Clone 📌

- Shop.com is an e-commerce website. From this website, you can buy clothing and beauty products
- Developed along with a team of 5 members in one week
- Here we mainly worked on providing the user interface to the website
- My task in this project was to complete the navbar and footer.
- Tech stack: HTML, CSS
